

Dear Students,

We are incredibly excited to announce that our teach-out partner school is Lawrence Technological University, which is located at 21000 W Ten Mile Rd in Southfield, about 1.5 miles from the Specs Howard facilities. LTU has been around since 1932, and offers more than 100 programs, including undergraduate, graduate, doctoral and certificate programs. We have had an articulation agreement with LTU for many years now, and we feel they are the perfect place for you to complete the studies that you began with us.

When you transfer to LTU, your course of study will remain the same as it was at Specs Howard – they will be using our curriculum, our equipment and many of our instructors, so the transition will be simple and seamless.

The tuition structure will be explained by LTU, but it will be significantly less than your current tuition, making the transition even easier. (Note that some students may be eligible for a Closed School Discharge. Please visit studentaid.gov for more information.)

Lawrence Technological University will explain all of the details to you, and plans to hold both virtual and in-person events over the course of the summer to further their relationship with you and to answer any other questions you may have.

Best of luck in your new home – “Specs Howard at LTU”!

The Specs Howard School of Media Arts
